# Introduction

Note where there are fewer than 10 responses for a question this data is not shown in the chart to protect the confidentiality of staff and reliability of results.

## About this report

This benchmark report for NHS Devon ICB contains results for the 2023 NHS Staff Survey, and historical results back to 2019 where possible. These results are presented in the context of best, average and worst results for similar organisations where appropriate. Data in this report are weighted to allow for fair comparisons between organisations<sup>\*</sup>.

Please note: Results for Q1, Q10a, Q26d, Q27a-c, Q28, Q29, Q30, Q31a, Q32a-b, Q33, Q34a-b and Q35 are not weighted or benchmarked because these questions ask for demographic or factual information.

Please note: 2023 results for People Promise element 4 ('We are safe and healthy'), two of its sub-scores ('Health and safety climate' and 'Negative experiences') and Q13a-d have not been reported due to an issue with the data. Please see <a href="https://www.nhsstaffsurveys.com/survey-documents/">https://www.nhsstaffsurveys.com/survey-documents/</a> for more details.

Full details of how the data are calculated and weighted are included in the Technical Document, available to download from the Staff Survey website.

## How results are reported

For the 2021 survey onwards the questions in the NHS Staff Survey are aligned to the People Promise. This sets out, in the words of NHS staff, the things that would most improve their working experience, and is made up of seven elements:

In support of this, the results of the NHS Staff Survey are measured against the seven People Promise elements and against two of the themes reported in previous years (Staff Engagement and Morale). The reporting also includes sub-scores, which feed into the People Promise elements and themes. The next slide shows how the People Promise elements, themes and subscores are related and mapped to individual survey questions.

\* The data included in this report are weighted to the national benchmarking groups. The figures in this report may be different to the figures produced by your contractor. Please see Appendix C for a note on the revision to 2019 historical benchmarking for Mental Health & Learning Disability and Mental Health, Learning Disability & Community Trusts, and Community Trust benchmarking groups.

# People Promise elements, themes and sub-scores

People Promise elements	Sub-scores	Questions	
	Compassionate culture	Q6a, Q25a, Q25b, Q25c, Q25d	
We are compassionate and inclusive	Compassionate leadership	Q9f, Q9g, Q9h, Q9i	
we are compassionate and inclusive	Diversity and equality	Q15, Q16a, Q16b, Q21	
	Inclusion	Q7h, Q7i, Q8b, Q8c	
We are recognised and rewarded	No sub-score	Q4a, Q4b, Q4c, Q8d, Q9e	
	Autonomy and control	Q3a, Q3b, Q3c, Q3d, Q3e, Q3f, Q5b	
We each have a voice that counts	Raising concerns	Q20a, Q20b, Q25e, Q25f	
	Health and safety climate	Q3g, Q3h, Q3i, Q5a, Q11a, Q13d, Q14d	
	Burnout	Q12a, Q12b, Q12c, Q12d, Q12e, Q12f, Q12g	
We are safe and healthy	Negative experiences	Q11b, Q11c, Q11d, Q13a, Q13b, Q13c, Q14a, Q14b, Q14c	
	Other questions [Not scored]	Q17a*, Q17b*, Q22* *Q17a, Q17b and Q22 do not contribute to the calculation of any scores or sub-scores.	
	Development	Q24a, Q24b, Q24c, Q24d, Q24e	
We are always learning	Appraisals	Q23a*, Q23b, Q23c, Q23d *Q23a is a filter question and therefore influences the sub-score without being a directly scored question	
	Support for work-life balance	Q6b, Q6c, Q6d	
We work flexibly	Flexible working	Q4d	
	Team working	Q7a, Q7b, Q7c, Q7d, Q7e, Q7f, Q7g, Q8a	
We are a team	Line management	Q9a, Q9b, Q9c, Q9d	
Themes	Sub-scores	Questions	
	Motivation	Q2a, Q2b, Q2c	
Staff Engagement	Involvement	Q3c, Q3d, Q3f	
	Advocacy	Q25a, Q25c, Q25d	
	Thinking about leaving	Q26a, Q26b, Q26c	
Morale	Work pressure	Q3g, Q3h, Q3i	
	Stressors	Q3a, Q3e, Q5a, Q5b, Q5c, Q7c, Q9a	
		inked to the People Promise elements or themes	

#### Introduction

This section provides a brief introduction to the report, including how questions map to the People Promise elements, themes and sub-scores, as well as features of the charts used throughout.

## **Organisation details**

This slide contains **key information** about the NHS organisations participating in this survey and details for your own organisation, such as response rate.

#### People Promise elements, themes and sub-scores: Overview

This section provides a high-level **overview** of the results for the seven elements of the People Promise and the two themes, followed by the results for each of the **sub-scores** that feed into these measures.

## People Promise elements, themes and sub-scores: Trends

This section provides trend results for the seven elements of the People Promise and the two themes, followed by the trend results for each of the sub-scores that feed into these measures.

All of the People Promise elements, themes and sub-scores are scored on a 0-10 scale, where a higher score is more positive than a lower score. For example, the Burnout sub-score, a higher score (closer to 10) means a lower proportion of staff are experiencing burnout from their work. These scores are created by scoring questions linked to these areas of experience and grouping these results together. Your organisation results are benchmarked against the benchmarking group average, the best scoring organisation and the worst scoring organisation. These charts are reported as percentages. The meaning of the value is outlined along the y axis. The questions that feed into each sub-score are detailed on slide 5.

0

Note, where there are fewer than 10 responses for a question this data is not shown to protect the confidentiality of staff and reliability of results.

Note, 2023 results for People Promise element 4 ('We are safe and healthy'), two of its sub-scores ('Health and safety climate' and 'Negative experiences') and Q13a-d have not been reported due to an issue with the data. Please see <a href="https://www.nhsstaffsurveys.com/survey-documents/">https://www.nhsstaffsurveys.com/survey-documents/</a> for more details.

## People Promise elements, themes and sub-scores: Questions

This section provides trend results for **questions**. The questions are presented in sections for each of the People Promise elements and themes. Not all questions reported within the section for a People Promise element or theme feed into the score and sub-scores for that element or theme. The first slide in the section for each People Promise element or theme lists which of the questions that are included in the section feed into the score and sub-scores, and which do not.

## **Questions not linked to People Promise**

Results for the questions that are not related to any People Promise element or theme and do not contribute to the scores and sub-scores are included in this section.

## **Workforce Equality Standards**

This section shows that data required for the indicators used in the **Workforce Race** Equality Standard (WRES) and the Workforce Disability Equality Standard (WDES).

#### About your respondents

This section provides details of the staff responding to the survey, including their **demographic and other classification questions**.

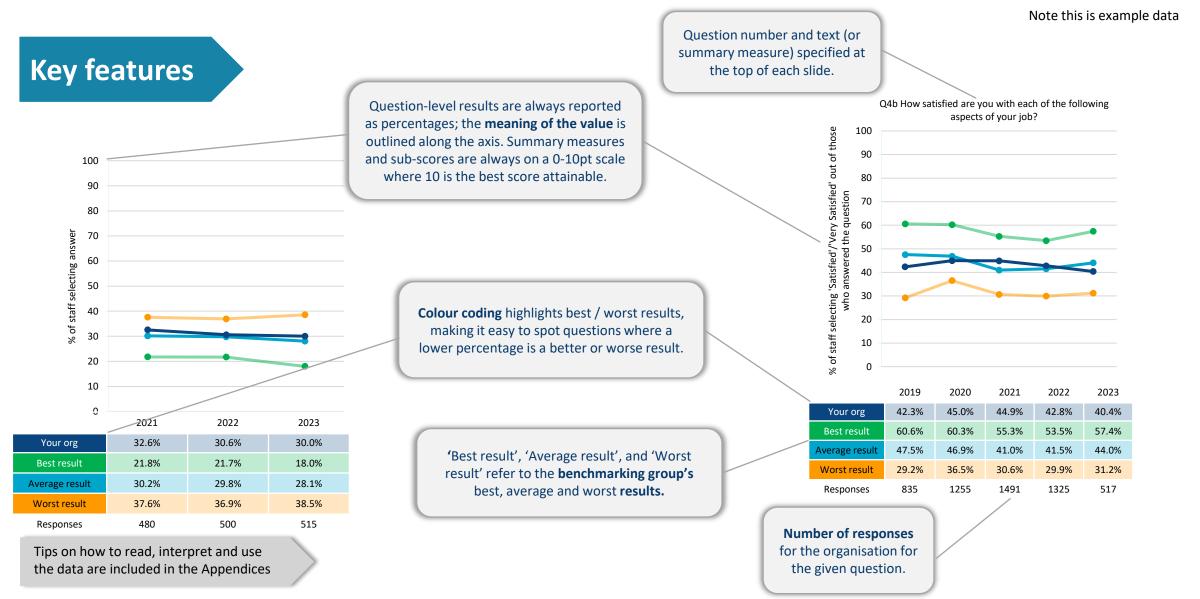

## Appendices

Here you will find:

- Response rate.
- Significance testing of the People Promise element and theme results for 2022 vs 2023.
- > Guidance on data in the benchmark reports.
- Additional reporting outputs.
- > Tips on action planning and interpreting the results.
- Contact information.

Note charts will only display data for the years where an organisation has data. For example, an organisation with three years of trend data will see charts such as q4b with data only in the 2021, 2022 and 2023 portions of the chart and table.

# **Workforce Equality Standards**

Note where there are fewer than 10 responses for a question, results are suppressed to protect staff confidentiality and reliability of data.

#### Workforce Race Equality Standards (WRES)

This section contains data for the organisation required for the NHS Staff Survey indicators used in the Workforce Race Equality Standard (WRES). It includes the 2019-2023 organisation and benchmarking group median results for q13a, q13b&c combined, q15, and q16b split by ethnicity (by white staff / staff from all other ethnic groups combined).

### Workforce Disability Equality Standards (WDES)

This section contains data for the organisation required for the NHS Staff Survey indicators used in the Workforce Disability Equality Standard (WDES). It includes the 2019-2023 organisation and benchmarking group median results for q4b, q11e, q14a-d, and q15 split by staff with a long lasting health condition or illness compared to staff without a long lasting health condition or illness. It also shows results for q31b (for staff with a long lasting health condition or illness only), and the staff engagement score for staff with a long lasting health condition or illness, compared to staff without a long lasting health condition or illness, compared to staff without a long lasting health condition or illness and the overall engagement score for the organisation.

In 2022, the text for q31b was updated and the word 'adequate' was updated to 'reasonable'.

The WDES breakdowns are based on the responses to q31a Do you have any physical or mental health conditions or illnesses lasting or expected to last for 12 months or more?

This section contains data required for the staff survey indicators used in the Workforce Race Equality Standard (WRES) and Workforce Disability Equality Standard (WDES). Data presented in this section are unweighted.

### Workforce Race Equality Standards (WRES)

Indicator	Qu No	Workforce Race Equality Standard					
For each of the following indicators, compare the outcomes of the responses for white staff and staff from all other ethnic groups combined							
5	Q14a	Percentage of staff experiencing harassment, bullying or abuse from patients, relatives or the public in last 12 months					
6	Q14b & Q14c	Percentage of staff experiencing harassment, bullying or abuse from staff in last 12 months					
7	Q15	Percentage believing that their organisation provides equal opportunities for career progression or promotion					
8	Q16b	In the last 12 months have you personally experienced discrimination at work from any of the following? b) Manager/team leader or other colleagues					

### Workforce Disability Equality Standards (WDES)

Indicator	Qu No	Workforce Disability Equality Standard					
For each of the following indicators, compare the responses for staff with a LTC* or illness vs staff without a LTC or illness							
4a	Q14a	Percentage of staff experiencing harassment, bullying or abuse from patients/service users, their relatives or other members of the public					
4b	Q14b	Percentage of staff experiencing harassment, bullying or abuse from managers					
4c	Q14c	Percentage of staff experiencing harassment, bullying or abuse from other colleagues					
4d	Q14d	Percentage of staff saying that the last time they experienced harassment, bullying or abuse at work, they or a colleague reported it					
5	Q15	Percentage believing that their organisation provides equal opportunities for career progression or promotion					
6	Q11e	Percentage of staff saying that they have felt pressure from their manager to come to work, despite not feeling well enough to perform their duties					
7	Q4b	Percentage staff saying that they are satisfied with the extent to which their organisation values their work					
8	Q31b	Percentage of staff with a long lasting health condition or illness saying their employer has made reasonable adjustment(s) to enable them to carry out their work					
9a	theme_engagement	The staff engagement score for staff with LTC or illness vs staff without a LTC or illness					

\*Staff with a long term condition

Survey Coordination Centre

## Workforce Race Equality Standards (WRES)

Vertical scales on the following charts vary from slide to slide and this effects how results are displayed. This allows incremental changes and small differences between results for subgroups to be more easily interpreted.

Data shown in the WRES charts are unweighted.

Averages are calculated as the median for the benchmark group.

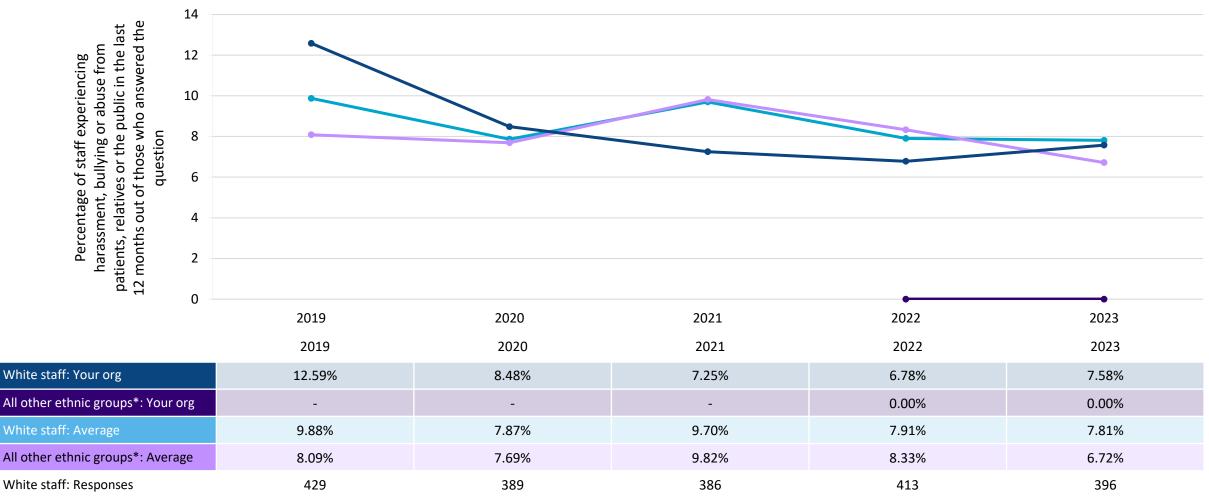

Note where there are fewer than 10 responses for a question this data is not shown in the chart to protect the confidentiality of staff and reliability of results.

# Appendix B: Significance testing 2022 vs 2023

## Appendix B: Significance testing – 2022 vs 2023

Statistical significance helps quantify whether a result is likely due to chance or to some factor of interest. The table below presents the results of significance testing conducted on the theme scores calculated in both 2022 and 2023<sup>\*</sup>. For more details please see the <u>technical document</u>.

People Promise elements	2022 score	2022 respondents	2023 score	2023 respondents	Statistically significant change?
We are compassionate and inclusive	7.79	428	7.30	416	Significantly lower
We are recognised and rewarded	7.09	428	6.68	416	Significantly lower
We each have a voice that counts	7.04	426	6.63	411	Significantly lower
We are safe and healthy	6.55	428	-	-	-
We are always learning	6.08	421	5.07	404	Significantly lower
We work flexibly	7.60	428	7.27	415	Significantly lower
We are a team	7.49	426	7.18	416	Significantly lower
Themes					
Staff Engagement	6.95	428	6.21	416	Significantly lower
Morale	6.16	428	5.37	416	Significantly lower

Note. 2023 results for 'We are safe and healthy' have not been reported due to an issue with the data. Please see <u>https://www.nhsstaffsurveys.com/survey-documents/</u> for more details.

\* Statistical significance is tested using a two-tailed t-test with a 95% level of confidence.

Survey Coordination Centre

Appendix C: Tips on using your benchmark report

The following pages include tips on how to read, interpret and use the data in this report. The suggestions are aimed at users who would like some guidance on how to understand the data in this report. These suggestions are by no means the only way to analyse or use the data, but have been included to aid users.

### Key points to note

The seven People Promise elements, the two themes and the sub-scores that feed into them cover key areas of staff experience and present results in these areas in a clear and consistent way. All of the People Promise elements, themes and sub-scores are scored on a 0-10 scale, where a higher result is more positive than a lower result. These results are created by scoring questions linked to these areas of experience and grouping these results together. Details of how the results are calculated can be found in the technical document available on the <u>Staff</u> <u>Survey website</u>.

A key feature of the reports is that they **provide organisations with up to five years of trend data**. Trend data provides a much more reliable indication of whether the most recent results represent a change from the norm for an organisation than comparing the most recent results only to those from the previous year. Taking a longer term view will help organisations to identify trends over several years that may have been missed when comparisons are drawn solely between the current and previous year.

People Promise elements, themes and sub-scores are benchmarked so that organisations can make comparisons to their peers on specific areas of staff experience. Question results provide organisations with more granular data that will help them to identify particular areas of concern. The trend data are benchmarked so that organisations can identify how results on each question have changed for themselves and their peers over time by looking at a single chart.

Note. Historical benchmarking data for 2019 has been revised for the Mental Health & Learning Disability and Mental Health, Learning Disability & Community Trusts, and Community Trusts benchmarking groups. This is due to a revision in the occupation group weighting to correctly reflect historical benchmarking group changes. Historical data is reweighted each year according to the latest results and so historical figures change with each new year of data; however it is advised to keep the above in mind when viewing historical results released in 2023.

Note. 2023 results for People Promise element 4 ('We are safe and healthy'), two of its sub-scores ('Health and safety climate' and 'Negative experiences') and Q13a-d have not been reported due to an issue with the data. Please see <a href="https://www.nhsstaffsurveys.com/survey-documents/">https://www.nhsstaffsurveys.com/survey-documents/</a> for more details.

## Appendix C: 1. Reviewing People Promise and theme results

When analysing People Promise element and theme results, it is easiest to start with the **overview** page to quickly identify areas of interest which can then be compared to the best, average, and worst result in the benchmarking group.

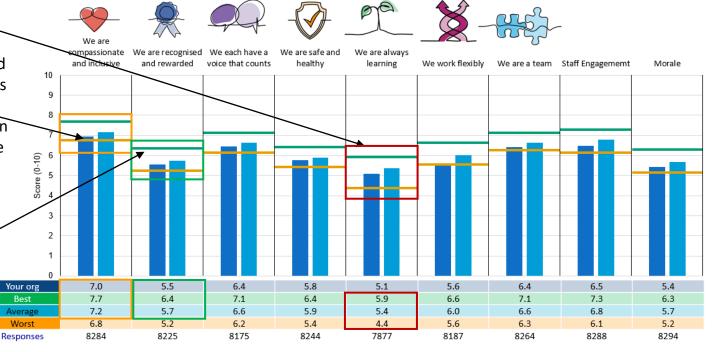

It is important to **consider each result within the range of its benchmarking group 'Best result' and 'Worst result'**, rather than comparing People Promise element and theme results to one another. Comparing organisation results to the benchmarking group average is another important point of reference.

#### Areas to improve

- By checking where the 'Your org' column/value is lower than the benchmarking group 'Average result' you can quickly identify areas for improvement.
- It is worth looking at the difference between the 'Your org' result and the benchmarking group 'Worst result'. The closer your organisation's result is to the worst result, the more concerning the result.
- Results where your organisation's result is only marginally better than the 'Average result', but still lags behind the 'Best result' by a notable margin, could also be considered as areas for further improvement.

#### **Positive outcomes**

- Similarly, using the overview page it is easy to identify People Promise elements and themes which show a positive outcome for your organisation, where 'Your org' results are distinctly higher than the benchmarking group 'Average result'.
- Positive stories to report could be ones where your organisation approaches or matches the benchmarking group's 'Best result'.

Only one example is highlighted for each point

## > Appendix C: 2. Reviewing results in more detail

### **Review trend data**

Trend data can be used to identify measures which have been consistently improving for your organisation (i.e. showing an upward trend) over the past years and ones which have been declining over time. These charts can **help establish if there is genuine change in the results** (if the results are consistently improving or declining over time), or whether a change between years is just a minor **year-on-year** fluctuation.

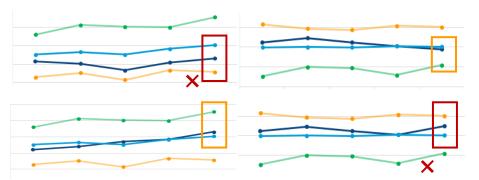

Benchmarked trend data also allows you to review local changes and benchmark comparisons at the same time, allowing for various types of questions to be considered: e.g. how have the results for my organisation changed over time? Is my organisation improving faster than our peers?

### Review the sub-scores and questions feeding into the People Promise elements and themes

In order to understand exactly which factors are driving your organisation's People Promise element and theme results, you should review the sub-scores and questions feeding into these results. The **sub-score results** and the 'Question results' section contain the sub-scores and questions contributing to each People Promise element and theme, grouped together. By comparing 'Your org' results to the benchmarking group 'Average', 'Best' and 'Worst' results for each question, the questions which are driving your organisation's People Promise element and theme results can be identified.

For areas of experience where results need improvement, action plans can be formulated to **focus on the questions where the organisation's results fall between the benchmarking group average and worst results.** Remember to keep an eye out for questions where a lower percentage is a better outcome – such as questions on violence or harassment, bullying and abuse.

 Negative driver, org result falls between average and worst benchmarking group result for question

## Appendix C: 3. Reviewing question results

This benchmark report displays results for all questions in the questionnaire, including benchmarked trend data wherever available. While this a key feature of the report, at first glance the amount of information contained on more than 140 pages might appear daunting. The below suggestions aim to provide some guidance on how to get started with navigating through this set of data.

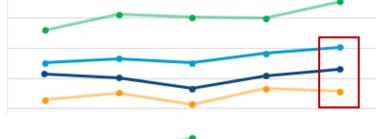

#### Identifying questions of interest

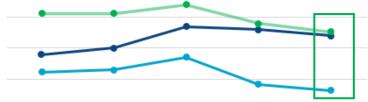

#### > Pre-defined questions of interest – key questions for your organisation

Most organisations will have questions which have traditionally been a focus for them - questions which have been targeted with internal policies or programmes, or whose results are of heightened importance due to organisation values or because they are considered a proxy for key issues. Outcomes for these questions can be assessed on the backdrop of benchmark and historical trend data.

#### > Identifying questions of interest based on the results in this report

The methods recommended to review your People Promise and theme results can also be applied to pick out question level results of interest. However, **unlike People Promise elements, themes and sub-scores where a higher result always indicates a better result, it is important to keep an eye out for questions where a lower percentage relates to a better outcome** (see details on the 'Using the report' page in the 'Introduction' section).

- To identify areas of concern: look for questions where the organisation value falls between the benchmarking group average and the worst result, particularly questions where your organisation result is very close to the worst result. Review changes in the trend data to establish if there has been a decline or stagnation in results across multiple years, but consider the context of how the organisation has performed in comparison to its benchmarking group over this period. A positive trend for a question that is still below the average result can be seen as good progress to build on further in the future.
- When looking for positive outcomes: search for results where your organisation is closest to the benchmarking group best result (but remember to consider results for previous years), or ones where there is a clear trend of continued improvement over multiple years.

Survey Coordination Centre

Appendix D: Additional reporting outputs

Note where there are fewer than 10 responses for a question this data is not shown in the chart to protect the confidentiality of staff and reliability of results.

Below are links to other key reporting outputs that complement this report. A full list and more detailed explanation of the reporting outputs is included in the Technical Document.

### Supporting documents

Basic Guide: Provides a brief overview of the NHS Staff Survey data and details on what is contained in each of the reporting outputs.

Technical Document: Contains technical details about the NHS Staff Survey data, including: data cleaning, weighting, benchmarking, People Promise, historical comparability of organisations and questions in the survey.

### Other reporting outputs

Online Dashboards: Interactive dashboards containing results for all trusts nationally, each participating organisation (local), and for each region and ICS. Results are shown with trend data for up to five years where possible and show the full breakdown of response options for each question.

Breakdown reports: Reports containing People Promise and theme results split by breakdown (locality) for NHS Devon ICB.

<u>National Briefing Document</u>: Report containing the national results for the People Promise elements, themes and sub-scores. Results are shown with trend data for up to five years where possible.

**Detailed spreadsheets** Contain detailed weighted results for all participating organisations, all trusts nationally, and for each region and ICS.
