Introduction

Background

- The NHS Staff Survey is one of the largest workforce surveys in the world and has been conducted every year since 2003. To support inclusion and the People Promise commitment that “we each have a voice that counts”, in 2022 NHS England extended eligibility to members of the NHS workforce who do not have a substantive contract but work for an in-house bank.
- Expanding eligibility to take part in the NHS Staff Survey to bank only workers ensures their voices are heard and increases understanding of working experience for this group, providing insight into any inequalities and helping to promote a compassionate and inclusive culture.
- A new version of the NHS Staff Survey was created specifically for bank workers in 2022. Participation was voluntary in the first year, but then became mandated for any organisation participating in the NHS Staff Survey for Bank only workers (NSSB) which had a minimum of 200 eligible staff. Other organisations are still welcome to participate in the survey.

Participation

- Bank workers were deemed eligible according to the following criteria:
 - Having been paid by the organisation for any work or training in the past 6 months (as at 1st September)
 - Working on bank only – without a substantive or fixed term contract at the organisation
 - Excludes external bank workers, such as those paid or directly supplied by external providers of bank services

Benchmarking comparisons

- This benchmark report for University Hospitals Coventry and Warwickshire NHS Trust contains organisation results for People Promise elements/themes, sub-scores, and questions from 2025 back to 2022 (where possible). These results are presented in the context of best, average and worst results for similar organisations nationally where appropriate.*
- Unlike the NHS Staff Survey results for substantive staff, the results for bank only workers are not weighted by occupation group. When making comparisons against the benchmarking group results, it should be noted that the occupation group profile of the bank workforce at the organisation may be different from the average for the benchmarking group, and any differences should be considered when interpreting the results in this report. The profile of responses by occupation group is shown for the organisation and the benchmarking group in the '[Organisation details](#)' section of this report.
- Results for Q1-3, Q10, Q13, Q15, Q33-40a and Q41a-51 are not benchmarked because these questions ask for demographic or factual information.

Comparing NHS Staff Survey results

- It is important to note the NSSB results are not directly comparable with the NHS Staff Survey results. Any read across between results for bank only and substantive staff should be made with caution due to differences in the survey methodology/questions asked and differences in the profile of bank workers and staff with a substantive contract.

* Benchmarking groups are aligned to those reported for the NHS Staff Survey and are based on the services provided by the organisation. Benchmarking results for 2022 are not available as survey participation was voluntary and the 2022 aggregated results are not nationally representative.

People Promise elements/themes

- The questions in NSSB are aligned to the People Promise elements. This sets out, in the words of NHS staff, the things that would most improve their working experience, and is made up of seven elements:

- In support, the results are measured against the seven People Promise elements and against two themes (Staff Engagement and Morale).

Sub-scores/questions

- Reporting also includes sub-scores, which feed into the People Promise elements and themes. Each People Promise element score and theme score is based on one to four sub-scores, with each sub-score calculation dependent on the responses given to between one and nine questions*.
- Results for individual questions are often reported as the sum of two response options. For example, the percentage of staff reported as agreeing with a question will include those who responded either "agree strongly" or "agree".
- It is worth noting that for certain questions, a higher percentage is a worse result than a lower percentage: for example, when looking at the “% of staff experiencing physical violence”, the lower the percentage, the better the results.
- The next slide shows how the People Promise elements, themes and sub-scores are related and mapped to individual survey questions.

* Except for the People Promise element of 'We are recognised and rewarded' which has no sub-scores.

People Promise elements, themes and sub-scores

People Promise elements	Sub-scores	Questions
We are compassionate and inclusive	Compassionate culture	Q8a, Q30a, Q30b, Q30c, Q30d
	Compassionate leadership	Q14f, Q14g, Q14h, Q14i
	Diversity and equality	Q20*, Q21a, Q21b, Q26
	Inclusion	Q11f, Q11g, Q12b, Q12c
We are recognised and rewarded	No sub-score	Q6a, Q6b, Q6c, Q12d, Q14e
We each have a voice that counts	Autonomy and control	Q5a, Q5b, Q5c, Q5d, Q5e, Q5f, Q7b
	Raising concerns	Q25a, Q25b, Q30e, Q30f
We are safe and healthy	Health and safety climate	Q5g, Q5h, Q5i, Q7a, Q16a, Q18d, Q19d
	Burnout	Q17a, Q17b, Q17c, Q17d, Q17e, Q17f, Q17g
	Negative experiences	Q16b**, Q16c, Q16d, Q18a, Q18b, Q18c, Q19a, Q19b, Q19c
We are always learning	Development	Q29a, Q29b, Q29c, Q29d, Q29e
We work flexibly	Support for work-life balance	Q8b, Q8c
We are a team	Team working	Q11a, Q11b, Q11c, Q11d, Q11e, Q12a
	Line management	Q14a, Q14b, Q14c, Q14d
Themes	Sub-scores	Questions
Staff Engagement	Motivation	Q4a, Q4b, Q4c
	Involvement	Q5c, Q5d, Q5f
	Advocacy	Q30a, Q30c, Q30d
Morale	Future intentions (Summary)	Q31
	Work pressure	Q5g, Q5h, Q5i
	Stressors	Q5a, Q5e, Q7a, Q7b, Q7c, Q11a, Q14a

*Due to changes in the Q20 question wording in 2025, Q20 is not included in the score calculation for this theme or sub-score.

**Due to changes in the Q16b question wording in 2025, Q16b is not included in the score calculation for this theme or sub-score.

Questions not linked to the People Promise elements or themes

Q1, Q2, Q3, Q9, Q15, Q16e, Q21c, Q22a, Q22b, Q23, Q24a-d, Q27, Q28, Q29f, Q29g, Q32a-c, Q40b

Introduction

This section provides a brief introduction to the report, including how questions map to the People Promise elements, themes and sub-scores, as well as features of the charts used throughout.

Organisation details

This slide contains **key information** about the NHS organisations participating in this survey and details for your own organisation, such as response rate and staff profile.

People Promise elements, themes and sub-scores: Overview

This section provides a high-level **overview** of the results for the seven elements of the People Promise and the two themes, followed by the results for each of the **sub-scores** that feed into these measures.

People Promise elements, themes and sub-scores: Trends

This section provides your organisation's trend results for the seven elements of the People Promise and the two themes, followed by the trend results for each of the sub-scores that feed into these measures.

All People Promise elements, themes and sub-scores are scored on a 0-10 scale, where a higher score is more positive than a lower score. For example, the Burnout sub-score, a higher score (closer to 10) means a lower proportion of staff are experiencing burnout from their work. These scores are created by scoring questions linked to these areas of experience and grouping these results together. Your organisation's 2023, 2024 and 2025 survey results are benchmarked against the benchmarking group average, the best scoring organisation and the worst scoring organisation. These charts are reported as percentages. The meaning of the value is outlined along the y axis. The questions that feed into each sub-score are detailed on slide 7.

Note: Where there are fewer than 10 responses for a question this data is not shown to protect the confidentiality of staff and reliability of results.

People Promise elements, themes and sub-scores: Questions

This section provides your organisation's trend results for **questions**. The questions are presented in sections for each People Promise element and each theme. Not all questions reported within the section for a People Promise element or theme feed into its score and any sub-scores. The first slide in the section for each People Promise element or theme lists which of the questions in that section feed into the score and sub-scores, and which do not.

Questions not linked to People Promise

Results for the questions that do not contribute to the result for any People Promise element or theme are included in this section.

Workforce Equality Standards

This section shows key data against indicators used in the **Bank Workforce Race Equality Standard (BWRES)** and the **Workforce Disability Equality Standard (WDES)**.

About your respondents

This section provides details of the staff responding to the survey, including their **demographic and other classification questions**. It also includes the socio-economic background questions.

Appendices

Here you will find:

- Response rate.
- Significance testing of the People Promise element and theme results for 2024 vs 2025.
- Tips on action planning and interpreting results.
- Information about the socio-economic background questions.
- Additional reporting outputs.

Note this is example data

Key features

Question-level results are always reported as percentages; the **meaning of the value** is outlined along the axis. Summary measures and sub-scores are always on a 0-10pt scale where 10 is the best score attainable.

Colour coding highlights best / worst results, making it easy to spot questions where a lower percentage is a better or worse result.

'Best result', 'Average result', and 'Worst result' refer to the **benchmarking group's** best, average and worst **results nationally**.

Question number and text (or summary measure) specified at the top of each slide.

Number of responses for the organisation for the given question.

Tips on how to read, interpret and use the data are included in the [Appendices](#)

* Note: Benchmarking for 2022 is unavailable as survey participation was voluntary and the aggregated results are not nationally representative.

Workforce Equality Standards

Note: where there are fewer than 10 responses for a question, results are suppressed to protect staff confidentiality and reliability of data.

Bank Workforce Race Equality Standard (Bank WRES)

This section shows key Bank WRES indicators for the organisation. The key data is aligned with the High Impact Actions (HIA) of the NHS Equality, Diversity and Inclusion (EDI) Improvement Plan. For organisations that extended the survey to bank only workers in 2022, those findings are included with your 2023, 2024 and 2025 data. Average results for 2022 are unavailable because survey participation was voluntary and therefore results are not nationally representative.

Data presented in this section are split by ethnicity (by white staff / staff from all other ethnic groups combined) and are unweighted.

In due course, NHS England's WRES team will provide further detailed reporting (including the intersect of gender across ethnicity).

Indicator	Qu No	HIA	Bank Workforce Race Equality Standard
For each of the following indicators, compare the outcomes of the responses for white bank workers and bank workers from all other ethnic groups combined			
4a	19a	6	Percentage of bank workers experiencing harassment, bullying or abuse from patients/service users, their relatives, or other members of the public in last 12 months
4b&c	19b&c	6&1	Percentage of bank workers experiencing harassment, bullying or abuse from managers/staff in last 12 months.
5a	18a	6&4	Percentage of bank workers that have personally experienced physical violence from patients/service users, their relatives, or other members of the public in the last 12 months.
6c	44	3	Percentage of workers whose main source of paid work is on the bank.
7a	21b	1,4 & 6	Percentage of bank workers that have personally experienced discrimination at work from managers/ team leader or colleagues in the last 12 months.
7b	21a	1,4 & 6	Percentage of bank workers that have personally experienced discrimination at work from patients/service users, their relatives, or other members of the public in last 12 months.
8a	6b	4	Percentage of bank workers saying that they are satisfied with the extent to which their organisation values their work.
8b	30e	4	Percentage of bank workers that feel safe to speak up about anything that concerns them in their organisation.
9	43b&44	5&2	Percentage of bank workers who were recruited to the NHS from outside of the UK and now whose main paid source of work is on the bank.

Workforce Disability Equality Standard (WDES)

This section looks at the bank workforce and self-reported long lasting health conditions or illnesses using Workforce Disability Equality Standard (WDES) data that directly aligns with the questions in NSSB. For organisations that extended the survey to bank only workers in 2022, findings are included with your 2023, 2024 and 2025 data. Average results for 2022 are unavailable because survey participation was voluntary and therefore results are not nationally representative.

The WDES breakdowns are based on the responses to q40a “Do you have any physical or mental health conditions or illnesses lasting or expected to last for 12 months or more?”.

Data presented in this section are unweighted.

Metric	Qu No	Workforce Disability Equality Standard
For each of the following metrics, compare the responses for bank workers with a LTC* or illness vs bank workers without a LTC or illness		
4a	19a	Percentage of bank workers experiencing harassment, bullying or abuse from patients/service users, their relatives, or other members of the public in last 12 months.
4b	19b	Percentage of bank workers experiencing harassment, bullying or abuse from managers in last 12 months.
4c	19c	Percentage of bank workers experiencing harassment, bullying or abuse from other colleagues in last 12 months.
4d	19d	Percentage of bank workers that the last time they experienced harassment, bullying or abuse at work, they or a colleague reported it
5	20	Percentage believing their organisation acts fairly with regard to career progression or development opportunities.**
6	16e	Percentage of bank workers saying they have felt pressure from their organisation to come to work, despite not feeling well enough to perform their duties.***
7	6b	Percentage of bank workers saying that they are satisfied with the extent to which their organisation values their work.
8	40b	Percentage of bank workers with a long lasting health condition or illness saying their employer has made reasonable adjustment(s) to enable them to carry out their work.
9a	Theme engagement	The engagement score for bank workers with LTC or illness vs bank workers without a LTC or illness

*Bank workers with a long term condition

** Due to changes in the question wording in 2025, previous years’ results for WDES metric 5 (Q20) are not reported. For more information, please refer to the *Technical Guide*: <https://www.nhsstaffsurveys.com/survey-documents/>

*** For metric 6, note the question wording differs from the NHS Staff Survey for substantive staff, referring to “your organisation” rather than “your manager”.

Workforce Race Equality Standard (Bank WRES)

Vertical scales on the following charts vary from slide to slide, which affects how results are displayed. This allows incremental changes and small differences between results for subgroups to be more easily interpreted.

Data shown in the WRES charts are unweighted.

Averages are calculated as the median for the benchmark group.

Note: where there are fewer than 10 responses for a question this data is not shown in the chart to protect the confidentiality of staff and reliability of results.

Staff experiencing harassment, bullying or abuse from patients, relatives or the public in the last 12 months

Staff experiencing harassment, bullying or abuse from managers/other colleagues in the last 12 months.

About your respondents

This section shows demographic and other background information for 2025.

Background details - Reasons for working as a bank worker for the NHS

Reason	Your org (%)	Average (%)
As an additional source of income	31.82%	35.78%
Quickest route into NHS employment	6.82%	7.94%
To develop or maintain skills/gain work experience	43.94%	33.33%
I enjoy the variety of working in different teams/areas	29.55%	29.83%
The skills and experience will help me obtain a substantive role	21.21%	17.35%
It offers flexible working/in control of work hours	51.52%	60.67%
I am a student	15.91%	9.88%
I am returning to work after a career break	0.00%	2.63%
I am approaching retirement	1.52%	5.86%
I have retired and want to work part-time	21.97%	18.97%
It is the only contract available	12.12%	7.58%
It pays more money per shift	6.82%	5.41%
Other reason	10.61%	8.11%

Socio-economic Background

This section shows information about the socio-economic background of staff and People Promise scores by socio-economic background.

Socio-economic background: Five classes

Responses	58	58	58	58	58
Your org	46.55%	6.90%	17.24%	15.52%	13.79%
Average	53.40%	3.33%	16.75%	12.43%	11.76%

Please note – there was a higher than typical level of non-response to the socio-economic background questions, which resulted in 52.25% of respondents not receiving a Five class score at the national level. For more information about socio-economic background, please see [appendix D](#).

Socio-economic background: Three classes

Responses	90	90	90
Your org	55.56%	7.78%	36.67%
Average	57.98%	6.58%	35.75%

Please note – there was a higher than typical level of non-response to the socio-economic background questions, which resulted in 32.75% of respondents not receiving a Three class score at the national level. For more information about socio-economic background, please see [appendix D](#).

Socio-economic background: People Promise elements and themes

People Promise elements and themes in your organisation by socio-economic background (Five class)	We are compassionate and inclusive	We are recognised and rewarded	We each have a voice that counts	We are safe and healthy	We are always learning	We work flexibly	We are a team	Staff engagement	Morale
1 Managerial, administrative and professional	7.47	6.39	7.16	6.82	6.58	5.93	6.93	7.38	6.28
2 Intermediate	-	-	-	-	-	-	-	-	-
3 Small employers and own account workers	7.92	6.55	7.99	7.23	6.10	7.63	7.23	8.28	6.90
4 Lower supervisory and technical	-	-	-	-	-	-	-	-	-
5 Semi-routine and routine	-	-	-	-	-	-	-	-	-

People Promise elements and themes in your organisation by socio-economic background (Three class)	We are compassionate and inclusive	We are recognised and rewarded	We each have a voice that counts	We are safe and healthy	We are always learning	We work flexibly	We are a team	Staff engagement	Morale
1 Professional	7.31	6.19	6.83	6.44	6.19	5.80	6.73	6.98	6.21
2 Intermediate	-	-	-	-	-	-	-	-	-
3 Working class	7.77	6.36	7.24	7.41	6.24	7.42	7.01	7.58	6.64

Please note – there was a higher than typical level of non-response to the socio-economic background questions. For more information about interpreting socio-economic background data, please see [appendix D](#).

Appendices

Appendix A: Response rate

Response rate

	2022	2023	2024	2025
Your org	16.24%	13.53%	15.67%	11.42%
Highest	-	47.51%	52.71%	41.93%
Average	-	16.49%	17.60%	14.55%
Lowest	-	4.95%	6.51%	6.63%
Responses	115	171	184	134

* Note: benchmarking for 2022 is unavailable as survey participation was voluntary and the aggregated results are not nationally representative.

Appendix B: Significance testing 2024 vs 2025

Appendix B: Significance testing – 2024 vs 2025

Statistical significance helps quantify whether a result is likely due to chance or to some factor of interest. The table below presents the results of significance testing conducted on the theme scores calculated in both 2024 and 2025. For more details, please see the [Technical Guide for bank only workers](#).

People Promise elements	2024 score	2024 respondents	2025 score	2025 respondents	Statistically significant change?
We are compassionate and inclusive	7.03	182	7.30	134	Not significant
We are recognised and rewarded	5.88	184	6.03	134	Not significant
We each have a voice that counts	6.46	181	6.75	133	Not significant
We are safe and healthy	6.38	180	6.64	131	Not significant
We are always learning	5.97	182	6.14	133	Not significant
We work flexibly	6.24	183	6.24	134	Not significant
We are a team	6.45	180	6.66	134	Not significant
Themes					
Staff Engagement	6.75	184	7.02	134	Not significant
Morale	5.82	184	6.13	134	Not significant

* Statistical significance is tested using a two-tailed t-test with a 95% level of confidence.

Appendix C: Tips on using your benchmark report

The following pages include tips on how to read, interpret and use the data in this report. **Suggestions are aimed at users who would like some guidance on how to understand the data** in this report. These are not the only way to analyse or use the data, but have been included to aid users.

Key points to note

The seven People Promise elements, the two themes and the sub-scores that feed into them cover key areas of staff experience and present results in these areas in a clear and consistent way. People Promise elements, themes and sub-scores are scored on a 0-10 scale, where a higher result is more positive than a lower result. These results are created by scoring questions linked to these areas of experience and grouping these results together. Details of how the results are calculated can be found in the Technical Guide for bank only workers available on the [Staff Survey website](#).

A key feature of the reports is that they currently **provide organisations with up to three years of trend data where available, but going forward, the number of years will be increased (up to 5 years) in line with the benchmarking reports for the NHS Staff Survey for substantive staff**. Trend data provides a much more reliable indication of whether the most recent results represent a change from the norm for an organisation than comparing the most recent results only to those from the previous year. Taking a longer-term view will help organisations to identify trends over several years that may have been missed when comparisons are drawn solely between the current and previous year.

People Promise elements, themes and sub-scores are benchmarked so that organisations can make comparisons to their peers on specific areas of staff experience. Question results provide organisations with more granular data that will help them to identify areas of concern. The trend data are benchmarked so that organisations can identify how results on each question have changed for themselves and their peers over time by looking at a single chart.

Note: 2023 results for People Promise element 4 ('We are safe and healthy'), two of its sub-scores ('Health and safety climate' and 'Negative experiences'), Q18a-d and Q19a-d have corrective weighting applied following an issue with the data. Please see <https://www.nhsstaffsurveys.com/survey-documents/> for more details.

Appendix C: 1. Reviewing People Promise element and theme results

When analysing People Promise element and theme results, start with the **overview** page to quickly identify areas which are doing better or worse than benchmarking group results. When making these comparisons, users should note any differences between their organisation’s occupation group profile and that of the benchmarking group as a whole. The profile of the bank workforce at each organisation may be different from the average for the benchmarking group, and any profile differences should be considered when interpreting these results (please refer to staff profile comparison slides included in the Organisation details section of this report).

It is important to **consider each result within the range of its benchmarking group ‘Best’ and ‘Worst’ results**, rather than comparing People Promise element and theme results to one another. Comparing organisation results to the benchmarking group average is another important point of reference.

Areas to improve

- Check where the ‘Your org’ column/value is lower than the benchmarking group ‘Average’ to quickly identify areas for improvement.
- Note the difference between the ‘Your org’ result and the benchmarking group ‘Worst’ result. The closer your organisation’s result is to the worst result, the more concerning the result.
- Results where your organisation’s result is only marginally better than the ‘Average’, but still behind the best result by a notable margin, could also be considered as areas for further improvement.

Positive outcomes

- Similarly, using the overview page it is easy to identify People Promise elements and themes which show a positive outcome for your organisation, where ‘Your org’ results are distinctly higher than the benchmarking group ‘Average’ result.
- Positive stories to report could be ones where your organisation approaches or matches the benchmarking group’s ‘Best’ result.

Only one example is highlighted for each point

Review trend data

Trend data can be used to identify measures which have been consistently improving for your organisation (i.e. showing an upward trend) over the past years and ones which have been declining over time. These charts can help establish if there is genuine change in the results (if the results are consistently improving or declining over time), or whether a change between years is just a minor year-on-year fluctuation.

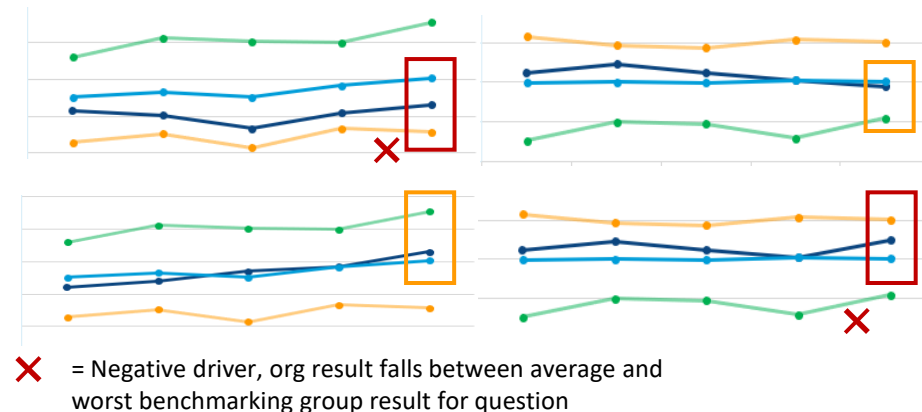

Benchmarked trend data also allows you to review local changes and benchmark comparisons at the same time, allowing for various types of questions to be considered: e.g. how have the results for my organisation changed over time? Is my organisation improving faster than our peers?

Review the sub-scores and questions feeding into the People Promise elements and themes

In order to understand exactly which factors are driving your organisation’s People Promise element and theme results, you should review the sub-scores and questions feeding into these results. The **sub-score results** and the ‘**Question results**’ section contain the sub-scores and questions contributing to each People Promise element and theme, grouped together. By comparing ‘Your org’ results to the benchmarking group ‘Average’, ‘Best’ and ‘Worst’ results for each question, the **questions which are driving your organisation’s People Promise element and theme results can be identified**.

For areas of experience where results need improvement, action plans can be formulated to **focus on the questions where the organisation’s results fall between the benchmarking group average and worst results**. Remember to keep an eye out for questions where a lower percentage is a better outcome – such as questions on violence or harassment, bullying and abuse.

This benchmark report displays results for all questions in the questionnaire, including benchmarked trend data wherever available. While this a key feature of the report, at first glance the amount of information contained on more than 140 pages might appear daunting. The below suggestions aim to provide some guidance on how to get started with navigating through this set of data.

Identifying questions of interest

➤ Pre-defined questions of interest – key questions for your organisation

Most organisations will have questions which have traditionally been a focus for them - questions which have been targeted with internal policies or programmes, or whose results are of heightened importance due to organisation values or because they are considered a proxy for key issues. Outcomes for these questions can be assessed on the backdrop of benchmark and historical trend data.

➤ Identifying questions of interest based on the results in this report

The methods recommended to review your People Promise and theme results can also be applied to pick out question level results of interest. However, **unlike People Promise elements, themes and sub-scores where a higher result always indicates a better result, it is important to keep an eye out for questions where a lower percentage relates to a better outcome** (see details on the 'Using the report' page in the 'Introduction' section).

- **To identify areas of concern:** look for questions where the organisation value falls between the benchmarking group average and the worst result, particularly questions where your organisation result is very close to the worst result. Review changes in the trend data to establish if there has been a decline or stagnation in results across multiple years but consider the context of how the organisation has performed in comparison to its benchmarking group over this period. A positive trend for a question that is still below the average result can be seen as good progress to build on further in the future.
- **When looking for positive outcomes:** search for results where your organisation is closest to the benchmarking group best result (but remember to consider results for previous years), or ones where there is a clear trend of continued improvement over multiple years.

Appendix D: Socio-economic background

Starting in 2025, the NHS Staff Survey for bank only workers includes questions on staff members' socio-economic background. The questionnaire included questions (Q42-46) from the [Socio-economic background harmonised standard](#) from the Government Statistical Service (GSS) Harmonisation Team.

What is socio-economic background?

The [Socio-economic background harmonised standard](#) uses the [Social Mobility Commission's definition](#) of socio-economic background, which is:

"[...] the particular set of social and economic circumstances that an individual has come from. It permits objective discussion of the influence of these circumstances on individuals' educational and career trajectories; and it can be objectively measured by capturing information on parental occupation and level of education."

Measuring socio-economic background

The NHS Staff Survey for bank only workers used the self-coded question set designed to place respondents into five classes, the [Five Class System of National Statistics Socio-economic Classification \(NS-SEC\)](#). During quality assurance processes, analysts at the Survey Coordination Centre (SCC) identified a high rate of non-response or non-substantive responses, resulting in 52.25% of respondents from across the country not being allocated a score with the Five Class System. This includes 6.26% that said their parents/guardians were not employed. Using an alternative Three Class System (that is derived only using *Q46 - When you were aged about 14, what was the occupation of the main or highest income earner?*) reduced the proportion without a score to 32.75%.

SCC also found the rate of responses not resulting in a score varied between demographic groups. This occurs with both the Five and Three Class Systems, though to lesser extent for the Three Class System. Groups less likely to produce a score include:

- People from **Mixed / multiple, Asian / Asian British, Black / African / Caribbean / Black British, Arab** or **Other** ethnic backgrounds (as compared to people from **White** backgrounds)
- **Younger people** (particularly those aged 16-30)
- People **recruited from abroad**

National results are shown in more detail on the following page.

Comparison of Three and Five Class approaches

The following tables show the proportion of respondents that are excluded from scoring using the Five and Three Class Systems using national data.

	Total
Five Class (No Score)	52.25%
Three Class (No Score)	32.75%

Ethnic background / group	White	Mixed / multiple ethnic background	Asian / Asian British	Black / African / Caribbean / Black British	Arab	Other
Five Class (No Score)	43.36%	60.89%	64.96%	64.19%	65.48%	67.02%
Three Class (No Score)	22.66%	40.71%	48.61%	45.63%	44.05%	49.74%

Age	16-20	21-30	31-40	41-50	51-65	66+
Five Class (No Score)	54.74%	55.72%	54.79%	57.10%	48.10%	45.89%
Three Class (No Score)	30.88%	33.96%	35.54%	39.14%	28.79%	25.19%

Recruited from abroad	Yes	No
Five Class (No Score)	59.70%	50.78%
Three Class (No Score)	41.81%	30.78%

Appendix E: Additional reporting outputs

Below are links to other key reporting outputs that complement this report. A full list and more detailed explanation of the reporting outputs is included in the Technical Guide for bank only workers.

Supporting documents

[Guide to Understanding and Using Results:](#) Provides a brief overview of the NHS Staff Survey data and details on what is contained in each of the reporting outputs.

[Technical Guide for bank only workers:](#) Contains technical details about the NHS Staff Survey bank workers data, including: data cleaning, weighting, benchmarking, People Promise elements and questions in the survey.

Other reporting outputs

[Online Dashboards:](#) Interactive dashboards containing results for all trusts nationally, each participating organisation (local), and for each region and ICS. Results are shown with trend data and show the full breakdown of response options for each question.

[National aggregate report for bank only workers:](#) Report containing the national results for the People Promise elements, themes and sub-scores.

[National WRES and WDES tables:](#) Contain unweighted national results for the Bank WRES and WDES indicators.
